We are an independent, family-owned business established in 1989 ran by three generations of Davis'. Through our many years of experience, we have learned what it takes to produce superior seed with competitive yields, and we are ready to share that with you!

Being farmers ourselves, we understand the ongoing challenges of the market. That is why our goal has been to provide our customers with top-notch service and products with the best genetics, high-yield traits, and seed quality.

We are located northeast of Bloomfield, Iowa but provide seed corn, soybeans, alfalfa, pasture mixes, legumes, and cover crops throughout the Midwest.

We would love to make you a part of the Davis Seed family, please contact us for more information regarding our products and services.

This image shows a blank sheet of white paper with horizontal ruling lines. The lines are evenly spaced and extend across the width of the page. There are no margins, text, or other markings on the paper.

A large, stylized version of the Davis Seed Company logo is centered in the lower half of the advertisement. The word "DAVIS" is rendered in a bold, yellow, sans-serif font. A yellow corn cob is integrated into the letter "D", and a large yellow five-pointed star is placed above the letter "i". Below "DAVIS", the words "SEED COMPANY" are written in a smaller, yellow, sans-serif font. The background of this section is a solid dark blue.
